JM 与设计的碰撞，三角与个性的碰撞

“

三角在人类文明的进程上无处不在。从古至今一直是设计是爱用的元素，更是建筑语言中不可或缺的重要组成部分。从金字塔，到JDS Architects的冰山住宅，从传统，到超现实主义。三角给人以恒久不变的稳固印象，却同时又能带来前卫尖锐的理念表达。它是独特与个性化的代表，也是牢不可破的稳步前行。

The Triangle was created early in modern civilization. It has been a favorite element of designers since ancient times, as well as an indispensable and important part of architectural language. The triangle gives us both stable and sharp impressions, as well as a unique and individual style. It's a symbol of a strong force steadily moving forward.
