

EASY Introduction

EASY is designed for dynamic companies looking to maximize their space. Simple products mix and match brilliantly so you can rearrange them as your business or your mind change. Unstack it, pick it up, rearrange it. It's easy and quick for assembling, and always looks great. EASY can be configured to executive desk, 2 person work station, 4 person work station and other multiple benching workstation. Also can add cabinets, wardrobe, standing height table, end table to complete your office look with the EASY line. It's a great choice for a new office set up or reset the office design.

The EASY executive desk is constructed with a metal frame and a sturdy laminate top which resists scratches, stains, and burns. The edge is wrapped with shock resistant PVC material for a strong and attractive finished product. It has two grommet holes in the front corners of the main desk to keep your work surface clear. The desk comes with modesty panel to protect privacy under the table and a low file and shelving storage to store office supplies and important documents.

You can add a storage cabinet provides a convenient place to store work materials, display items, or conceal personal belongings. Or add a wardrobe with a reversible door that can be set up on the left or right during assembly so that you can easily accommodate the layout of your space. Inside, a hanging rail provides a place to store garments from dress shirts to heavy winter jackets. They are perfect matches to the rest of the EASY line.
